MOVE-OUT CHECKLIST

USE THIS LIST TO PLAN AHEAD FOR A STRESS-FREE MOVING DAY

If your move is coming up and you're not sure where to start when it comes to preparing for moving day, here are a few items to make sure you get done before the moving crew arrives to begin loading the truck.

- PREP APPLIANCES**
If you're relocating large appliances to your new home make sure they are ready for transport. We recommend servicing washers and dryers prior to moving.
- CLEAN OUT REFRIGERATOR**
Moving the fridge? Make sure to clean it out and unplug it 24-48 hours before the movers arrive to give it time to defrost and dry before it is loaded.
- PACK NON-ALLOWABLE ITEMS SEPARATELY**
Certain items are not allowed to be packed into a moving truck including chemicals, cleaning products, propane tanks, etc. Review the full list of non-allowable items and make sure none of those items are packed into boxes to load on the truck.
- PACK AND PREPARE**
If you are packing your own belongings, make sure that all items are safely and securely packed in boxes, sealed, and labeled with contents and room destination BEFORE movers arrive to your home on moving day.
- PACK UP THE ESSENTIALS**
Make sure to pack a box of essential items that will be LAST to go on the truck. This should include items like toilet paper, paper towels, soap, phone chargers, a first-aid kit, tools, and any other items you might need on moving day before unpacking is complete.
- COMPLETE THE HIGH VALUE INVENTORY FORM**
This form should include any items that are worth more than \$100/lb
- PACK AN OVERNIGHT BAG**
Pack an overnight bag, just in case, with a change of clothes, toiletries, sheets, and other essential items for the first night in your new home, so you aren't scrambling to find them.
- KIDS BOX**
If you aren't planning to hire a sitter or don't have local family to keep your kids, make sure to pack a box of their toys and items to keep them entertained and carry it with you in the car on moving day.
