PACKING SUPPLIES CHECKLIST

MOVING IS MORE EFFICIENT WITH THE RIGHT TOOLS!

The only way to be sure that your household goods will survive a move is to pack them properly, using the right supplies. Here is a list of recommended items for your upcoming move.

QUALITY MOVING BOXES

Boxes are key! Make sure you have quality boxes that are sturdy and free of any damage to ensure that your items will be well-protected. Ask your moving company for dish barrels and wardrobe boxes and other specialty boxes designed to stand up to the job.

UNPRINTED NEWS WRAP

This is an ideal and inexpensive way to protect your fragile items during a move. Unprinted paper means no ink smearing or fading on your items, so you can rest assured they will arrive protected and pristine.

BUBBLE WRAP

For those items that need a little extra protection, make sure you have some bubble wrap on hand. It's great for wrapping your fragile items, filling space in boxes, and protecting framed photos or art.

Permanent Box Markers

Make sure to have a few of these on hand so you can label all your boxes with their room and a list of contents. This will make delivery and unpacking much easier!

Box Tape Dispensers and Refills

Box tape is designed for moving! This sturdy tape will ensure your boxes stay closed during transit and all the loading and unloading of the truck. Make sure to have plenty on hand and a dispenser always comes in handy for quick sealing and cutting!

Box Cutter

When it's time to unpack, you'll want to make sure you have a sharp box cutter on hand. This will speed up the process of opening up all your boxes, and make sure you have plenty of refill blades, you never know when you'll need them.
